Pile Height: 1/2"

Perforations: No

Applications:

STI's NP55® is the only option for true roll, realistic green speeds, and a look that rivals any natural green. The latest technological advancements have allowed STI to improve upon its world famous non-directional nylon putting surface NP5®. The new two-color yarn combination of STI's NP55® surface offers a natural look and performance that cannot be found anywhere else. While this product performs best with sand or ceramic infill, this product can be used without infill, which is ideal for indoor and portable applications.

These specifications are standard and may vary slightly due to manufacturing tolerances or consumer specifications.
